FOR IMMEDIATE RELEASE

RIGHTTIME MEDICAL CARE COMES TO OLNEY
Successful, award-winning, regional urgent care company opens
third Montgomery County location to accommodate growing patient base

OLNEY, MD – (January 16, 2012) – Righttime Medical Care opened its newest Care Center in Olney, Md., on Monday, January 16. Located at 18045 Georgia Avenue at the intersection of Route 108 and Georgia Avenue, the Olney Care Center is the company’s ninth location and its third in Montgomery County.

The Care Center occupies a former space medical space but has been extensively renovated using innovative design features. The feel of a traditional health care facility has been replaced by engaging colors, textures and art and comfortable private seating. A custom-designed water wall soon will be added as another element of the soothing atmosphere. The outside of the building is highlighted by bright primary colors to reflect the company’s palette.

Wherever possible, Righttime has integrated environmentally conscious features into the design, including LED lighting, nontoxic paints, recycled materials and high-efficiency zoned cooling and heating system.

With the design, patients will efficiently move through the center with access to resources that include a digital x-ray, on-site laboratory services, triage area and separate trauma and orthopedic rooms.

Righttime Medical Care delivers award-winning health care in nine locations across three counties in Maryland. Founder and CEO Robert G. Graw, Jr., M.D. says, “Our design is second-to-none in urgent care. Every detail of the patient’s comfort has been incorporated and reflects our commitment to the highest level of care.”

A practicing pediatrician, Dr. Graw founded Nighttime Pediatrics, as it was then called, with several other private practice pediatricians in 1989 to provide after-hours care for infants and children of working parents. The company has grown steadily since its original location in Annapolis, adding more Care Centers and changing its name to Righttime Medical Care to convey its extended hours and expanded care for both adult and pediatric patients.

“It’s our hope that everyone has a positive experience at Righttime,” says Dr. Graw. “Patients and families will enjoy the warm, inviting atmosphere of our cheerful design and receive superior medical care.”

The Olney Care Center was designed by Purple Cherry Architects of Annapolis, Md., and constructed by The Mullan Contracting Company of Lutherville, Md.

About Righttime Medical Care

A trusted name in urgent medical care for more than twenty years, Righttime Medical Care provides award-winning care to children and adults for illnesses and injuries daily from 9am until midnight, 365 days a year. Righttime's Board-certified providers treat patients of all ages with warmth and compassion. Most insurance plans are accepted. Righttime accepts walk-in patients and schedules same-day appointments online at MyRighttime.com, as well as through its Call Center at 888-808-6483, which opens daily at 7:30am. Care Centers are located in Annapolis, Arundel Mills, Columbia, Crofton, Gaithersburg, Gambrills, Olney, Pasadena and Rockville. Future Righttime Care Centers are planned in other Maryland communities and in Virginia.
